

RD 6030 XYZ Fluid Dispensing Robot

Simply the best modular dispensing table available. It combines a smart work bench to a built in precision overhead servo XYZ gantry system.

Mechanisms are neatly tucked in and do not add to the width of the base. This allows easy access from front, sides and top requiring less operator "reach" to the center of the table.

T Slot Baseplate Option:

The full length T Slot base provides flexibility in mounting fixturing and streamlines changeover.

Many Smart Design Features

Under this table surface, the robust machine base is fabricated from heavy steel tubing, then the entire top is precision ground to a specified flatness. All drives and mechanisms are mounted to this surface.

Other available top surfaces include:

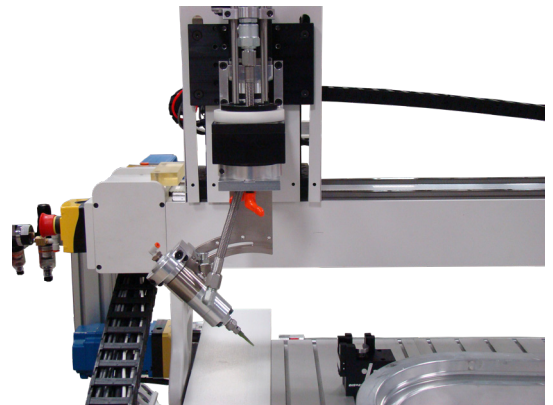

- T Slot Table
- Vacuum Table
- Panel Conveyor
- Custom Plates

Standard machine can travel at over 25 inches per second and is available in the following travels:

■ 100" x 50" (2500mm x 1250mm)	RD-2500
■ 50" x 100" (1250mm x 2500mm)	RD-1250
■ 60" x 30" (1500mm x 760mm)	RD-6030

Be sure to inquire about our limitless customizing capabilities for other sizes and special tooling.

Great for: RTV, 2 part epoxy, hot melt, spraying, etc.

Available 4th axis pivoting servo head with automatic tangential following capability.
