

RD 2500 Large Format Dispensing Table

Simply the best modular dispensing table available. It combines a smart work bench to a built in precision overhead servo XYZ gantry system.

Mechanisms are neatly tucked in and do not add to the width of the base. This provides easy access from front, sides and top requiring less operator "reach" to the center of the table.

Many Smart Design Features

The T Slot table base featuring 25 Full length T slots provides more than ample fixturing possibilities for most applications.

Under this table surface, the robust machine base is fabricated from heavy steel tubing, then the entire top is precision ground to a specified flatness.

Other types of top surfaces include:

- T Slot Table
- Vacuum Table
- Panel Conveyor
- Custom Plates
- Mechanized retractable pins

Standard machine can move at over 20 inches per second and is available in the following travels:

100" x 50"	(2500mm x 1250mm)	RD-2500
50" x 50"	(1250mm x 1250mm)	RD-1250
60" x 30"	(1500mm x 760mm)	RD-6030
30" x 30"	(760mm x 760mm)	RD-3030

Be sure to inquire about our limitless customizing capabilities for other sizes and special tooling.

Great for: RTV, 2 part epoxy, hot melt, spraying, etc.
